1. Organization Overview

Name: Paws Haven Animal Rescue

Paws Haven Animal Rescue is a non-profit organization dedicated to rescuing, sheltering, and providing medical care to abandoned, injured, and stray dogs. Founded to address the growing number of dogs in need within the local community, Paws Haven operates a small shelter facility offering emergency intake, veterinary treatment, and rehabilitation before dogs are placed into permanent, loving homes.

Mission

To give every rescued dog a second chance at life through compassionate care, medical treatment, and responsible rehoming.

Vision

A community where no dog is left injured, abandoned, or without a home.

Target Audience

Local dog lovers, prospective adopters, animal welfare donors, and community members interested in volunteering.

2. Website Goals and Objectives

The website aims to:

- Raise awareness of Paws Haven's work in the community
- Increase the number of successful dog adoptions
- Encourage donations and sponsorships
- Recruit and onboard volunteers

Key Performance Indicators (KPIs)

- Number of adoption enquiries submitted through the website
- Number of volunteer sign-ups
- Overall website traffic and engagement

3. Current Website Analysis

Not applicable. Paws Haven Animal Rescue does not currently have a website and relies solely on social media, which limits its reach and makes it difficult for the public to find adoption listings, donate, or get in contact with the organization.

4. Proposed Website Features and Functionality

- Homepage (index.html) — hero image, brief introduction, and call to action
- About Us (about.html) — organization history, mission, vision, and team

- Services/Adoption (services.html) — available dogs and the adoption process
- Enquiry (enquiry.html) — form for volunteering or sponsorship enquiries
- Contact (contact.html) — contact details, embedded map, and contact form

5. Design and User Experience

Color Scheme

Soft blues and greens with warm accent tones, evoking trust, calm, and care.

Typography

A clean, friendly sans-serif typeface for strong readability across devices.

Layout and Design

A simple, image-led layout with clear navigation and prominent calls to action such as ‘Adopt’, ‘Donate’, and ‘Volunteer’.

User Experience Considerations

- Clear, consistent navigation across every page
- Mobile-friendly, uncluttered layout
- High-contrast text for readability

6. Technical Requirements

The website will be built using HTML, CSS, and JavaScript, and hosted with a standard web hosting provider under a custom domain (e.g. www.pawshaven.org).

7. Timeline and Milestones

- Part 1 – HTML Structure and Planning: due 14 August
- Part 2 – CSS Styling: due in a subsequent submission
- Part 3 – JavaScript Functionality: due in a subsequent submission

8. Budget

- Domain registration: approximately R200 per year
- Web hosting: approximately R900 per year
- Ongoing maintenance: approximately R500 per year
